

## Scouting Report:

### Jodelle Gretler

#### SCOUTING REPORT – JODELLE GRETLER

Date of Birth: 2007

Nationality: Swiss

Position: Striker / Forward

Clubs: FC Zurich U20, Ljungskile SK

Report by: ScoutBridge Scouting Department

Jodelle Gretler is a dynamic and technically gifted striker with experience from both Swiss elite youth football and Swedish senior competition. She combines very good speed with close ball control and an aggressive playing style. Offensively she is a constant threat, contributing regularly with goals while also showing the ability to provide assists for teammates.

Her movement is one of her standout qualities. Gretler makes intelligent, well-timed runs in behind the defensive line and attacks space with determination. At the same time she is comfortable dropping deeper to link play, combining efficiently in small areas through quick one-touch solutions. This mature and adaptable attacking profile allows her to function in different offensive systems and roles.

Physically she is quick, agile, and strong in duels for her age. Although she is not the tallest, her aggression and low gravity makes up for it in the duels. This aggression in pressing adds value without the ball as well, as she works hard to regain possession and support her team defensively.

Mentally, Jodelle presents as highly professional and ambitious. She trains with focus, shows clear commitment to improvement, and demonstrates confidence and composure during both matches and training sessions.

Areas for improvement include consistency in decision-making under heavy pressure and further refinement of finishing from longer distances.

Overall, based on her current qualities, experience, and strong mentality, we assess that she is well suited for a Division 1 club in Sweden, where she can continue her progression while already making an impact at senior level. In 1-2 years she can further establish on this level and start looking upwards if she keeps on developing as she currently is.
